Environmental Information

Tork Kitchen Cleaning Cloth	Viscose Cotton
Viscose	Viscose fibres are produced from cellulose pulp. Cellulose is dissolved in alkaline solution by a chemical reaction with carbon disulphide and then spun to fibres in an acid spinning bath. The fibres are washed, dried and cut to intended fibre length.
Cotton	Cotton is natural fibres that normally are washed, bleached and dried.
Food Contact	This product fulfills the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.
Environmental certification	This product is certified for FSC®.
Packaging	Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes
Article creation date and latest article revision	Date of issue: 10-07-2023 Revision date: 12-01-2026
Production	This product is produced at Suameer - NL mill and certified according to ISO 9001 and ISO 14001 (Environmental management systems).
Disposal/destruction of used product	This product is mainly used for industrial processes. When used in industrial processes the product might through use be contaminated with different substances. This will determine how the used product will be handled/disposed of/destroyed. The product itself is suitable for incineration. If used in industrial processes contact local authorities before destruction.
